

ExportExpert®

POINT → CLICK → EXPORT

ExportExpert® Prepare & Manage Your Export Documents

ExportExpert®, Milgram's point-and-click export solution, was designed to meet the needs of today's exporters.

ExportExpert® simplifies the export process by helping you manage your transactions, documents, contacts, and products – all from an easy-to-use web interface.

ExportExpert® uses built-in intelligence to help you identify which documents are required for each of your shipments, and even helps you to complete them consistently and accurately.

ON-LINE EXPORT SOFTWARE

Features	
Secure web based solution: no software to install and available 24/7	✓
Paperless environment: documents are created in PDF format for emailing and archiving	✓
Multi-user interface: several users can process or access information at the same time	✓
Archival functions and audit trails support you with your compliance initiatives	✓
Real-time support: we see what you see	✓
Indicates which export documents must be completed; prompts you to complete all required fields and eliminates repetitive data-entry	✓
Saves you time by preparing customs paperwork and shipping instructions simultaneously	✓
Automatically consolidates commercial invoices	✓
