Instructions for Prior Notice Form

- 1) Submitter: The **Submitter** is the person or company that supplies the information reported on the Prior Notice.
- 2) Transmitter: The **Transmitter** is the person or company that transmits the Prior Notice (PN) to the FDA. UPS Supply Chain Solutions will be the transmitter on behalf of Milgram Freight Services.
- 3) Other Reference Numbers: Specific company reference numbers.
- 4) Page () of Pages: Number of pages.
- 5) Prior Notice Confirmation Number: The confirmation number sent from FDA advising that your prior notice information has been received.
- 6) Shipper FDA Registration Number: This is the number assigned by FDA to food facilities upon registration, within the context of the Bio Terrorism Act.
For purposes of the BTA, shipper is defined as *"the owner or exporter of the article of food who consigns and ships the article from a foreign country or the person who sends an article of food by international mail to the United States."*
- 7) Importer of Record: The name and address of the party responsible for the importation of merchandise, (related to this transaction) into the United States. The IRS/social Security (SS) number is mandatory.
- 8) Ultimate Consignee: The name and address of the ultimate consignee of the food in the United States. The IRS or Social Security (SS) number is mandatory.
- 9) Transport Detail
Mode of transport: Indicate means of transport/ truck, air, ocean, rail, mail or hand-carried.
Exporting carrier: Indicate name of carrier.
Carrier Country: Indicate carrier's country of registration.
Vessel/Voyage or Flight Number: Indicate vessel name and voyage number, or if via air, the flight number.
Container Number: Indicate the container number that the food is carried in.
B/L or AWB Number: Bill of lading number if transported via ocean freight. Airway bill number if transported via air.
Car or Trip Number: Railcar number if transported by rail. Trip number if transported by truck.
Private Vehicle License: Privately owned vehicle license plate number.
Vehicle State/Country: Privately owned vehicle state and country.
- 10) Product Line Detail
FDA Product Code: Indicate the complete FDA Product Code. The product codes are a unique FDA assigned number specific to each individual food product.
Lot Number/Code Number: Indicate the lot number, code number or other identifier of the food, where required by FDA regulations.
Number of Packages: Indicate the number of packages for the food article.
Manufacturer/processor FDA Registration Number: This is the number assigned by the FDA to manufacturers/processors upon registration, within the context of the Bioterrorism Act.

Quantity: Quantity of product related to this detail line.

Unit of Measure: Unit of measure of product related to this detail line.

Harmonized Number: Applicable U.S. Customs & Border Protection (CBP) harmonized tariff classification number related to the product covered in this detail line.

FDA Country of Origin: Indicate the FDA country of production, which is defined as (1) for food in its natural state, the country where the food was grown (including harvesting and collecting) and readied for shipment to the US; or (2) for wild fish and seafood caught or harvested outside the waters of the United States, the country in which the vessel is registered; or (3) for food no longer in its natural state, the country where the article is made.

Description of Goods: Indicate the common, usual or market name of the food article.

11) Owner Firm Type: Indicate owner firm type.

12) Producer Firm Type: Indicate producer firm type. If grower/harvester is chosen, and food is no longer in its natural state, indicate the grower/harvester registration number.

13) Anticipated Arrival Information: Indicate first port of arrival/unlading and the anticipated date and time when the article of food will arrive at the first port of arrival/unlading.

14) Contact Information: Indicate name and phone number of person completing this form.
